

THE

OPPORTUNITY

We see a very bright future in Augmented and Virtual Reality and look forward to working together to maximize our efforts and profits!

With Augmented and Virtual Reality everything old is new again.

We see through new eyes, touch through new hands and feel new again in our hearts and minds.

We endeavor to be a market leader!

Daydream

As a registered developer, Smart Digital Networks, Inc. has been working to incorporate the best Augmented & Virtual Reality SDKs, Source Code, 3D Materials, Audio and other developer resources into our projects.

PLANS

MARKETING & SALES

We plan to leverage our developer relationships to gain access to online stores for each platform.

We will work with these platforms to take advantage of title launch marketing opportunities.

As more of our products become available on each platform, we will begin to cross promote.

THE

COMPETITIVE
COMPARISON

There are many new developers in the Augmented & Virtual Reality space, however...

- We have more experience than most and relationships through our developer channels that most have not yet explored.
- We have built decades of contacts in both Silicon Valley and Hollywood.
- We have a collection of content rich web based applications, ready to be moved into Virtual Realty.
- We require capital to rapidly expand and market our upcoming product launches.

PROJECTIONS

Is Virtual & Augmented Reality The Next Big Thing?

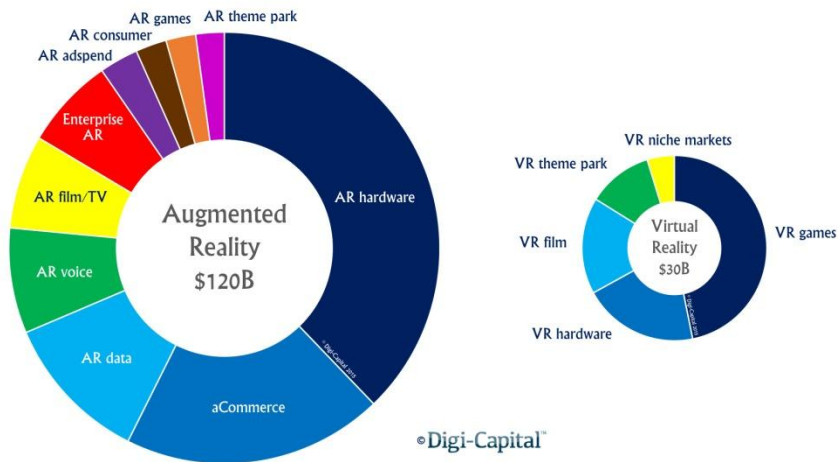

Virtual/Augmented Reality is the new frontier. Critics may say that its just a fad, however we believe this space is just in its infancy. No one believed a smartphone could have a HD quality camera, Internet browsing speed as fast as a desktop and much more. We've seen Apple acquire the German juggernaut *Metaio* in the Augmented Reality space in 2015 and Facebook pushing *Oculus Rift* forward.

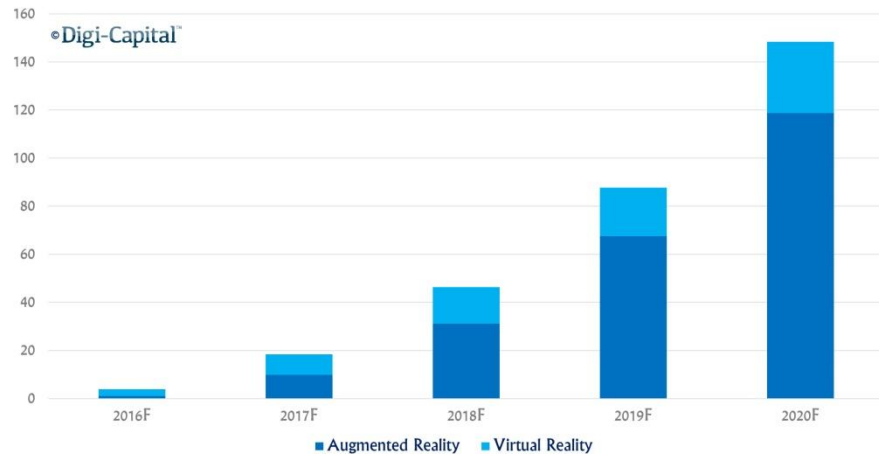

We are monitoring platform and application sales • We can scale our team as needed

We are 100% committed and believe in its growth
